

PUBLIC COMMENT OPPORTUNITY

OPEN-ROAD (EXPRESS) TOLLING RMA DOWNTOWN EXPRESSWAY

The Richmond Area Metropolitan Planning Organization (MPO) has opened a 14-day public review period for a proposed amendment to the *2031 Long-Range Transportation Plan* (LRTP) and the *FY 09 – FY 12 Transportation Improvement Program* (TIP) to include the **Open-Road (Express) Tolling on the RMA Downtown Expressway** project. Also proposed are adjustments to the conformity analysis year for seven projects.

A revised conformity analysis demonstrating that the proposed project and the seven analysis year adjustments meet federal air quality standards is required before the MPO can amend the LRTP and the TIP with the proposed changes. This technical review is complete and is posted on the Richmond Regional Planning District Commission (RRPDC) website (www.richmondregional.org); a copy is also available at the RRPDC office for public review.

To comment on the report, proposed amendment or analysis year adjustments, submit written comments for MPO consideration by fax, e-mail, or U.S. mail to Barbara Nelson at the RRPDC by 4:30 p.m. on Friday, December 3, 2010. Hearing impaired: call the Virginia Relay Center at 1-800-828-1120 (or 711).
