

YEAS & NAYS REPORT

With Capital Region Caucus Voting

~A Summary of Legislation~

2006 General Assembly Session

May 2006

Richmond Regional
Planning District Commission

Richmond Regional Planning District Commission
2104 West Laburnum Avenue, Suite 101
Richmond, Virginia 23227
Phone: (804) 367-6001
Fax: (804) 367-4375
www.richmondregional.org

The Richmond Regional Planning District Commission is pleased to provide its member jurisdictions with the following *Yeas and Nays Report*. Legislation is grouped by the House or Senate committee to which the bill was referred.

Given the length of the report, **only legislation which was approved/enacted has been incorporated into the document this year**; failed legislation has not been documented; however, legislation that passed both chambers but was vetoed by the Governor has been included. Vetoed legislation is marked as such.

Also included in the *Yeas and Nays Report* is our local legislators' (Capital Region Caucus members) voting record for each bill listed. This is highlighted following each piece of legislation.

Unless otherwise mentioned, legislation is effective as of July 1, 2006. Emergency legislation is effective upon the Governor's signature.

The *Yeas and Nays Report* is also posted to the Richmond Regional PDC web site and can be accessed by visiting www.richmondregional.org. In addition, detailed information, wording, and actions on individual bills can be found at the Virginia Legislative Information System's web site at <http://leg1.state.va.us/cgi-bin/legp504.exe?061+men+BIL>.

TABLE OF CONTENTS

HOUSE AGRICULTURE

SB 720 Highway user fees; localities may establish.	158
SB 721 Highway improvements; expands present revenue-sharing fund program.....	159

HOUSE AGRICULTURE

HB 340 Dogs; regulation of those that may be dangerous.

Summary as passed:

Control of dangerous and vicious dogs; registry; penalty. Requires the control of dangerous dogs within a statewide mandated framework. The bill imposes criminal penalties ranging from a Class 2 misdemeanor to a Class 6 felony for violations that result in injury to a person or death to a cat or dog. The bill expands the authority to petition a court to find a dog dangerous to any law-enforcement officer and makes that petition mandatory. A Virginia Dangerous Dog Registry is created to be maintained by the State Veterinarian; any change in the status of a dangerous dog is to be promptly submitted in writing. Surrender of a dog that is subject of a pending action to animal control shall not be in lieu of prosecution. The bill also (i) narrows the definition of "dangerous dogs" to include dogs that inflict injury to another cat or dog requiring the animal to be euthanized while also broadening safe harbor provisions; (ii) requires that a dog that has been found to be dangerous or vicious shall be spayed or neutered; and (iii) requires liability insurance in the amount of \$100,000 to be purchased by the owner of a dangerous dog, or in lieu of the insurance policy, the owner may obtain a surety bond. This bill is identical to HB 1039 and SB 200.

The Governor's amendments clarify that local governments have the authority to enact ordinances parallel to the statute regulating dangerous and vicious dogs and that localities may not invoke felony penalties for violation of local ordinances.

HB 339 Dogs and cats; licensed vets to collect license fee and provide receipt when admin. rabies vaccine.

Summary as passed:

Licensing of dogs and cats. Requires licensed veterinarians to forward to the local treasurer vaccination information for dogs. The local treasurer shall, upon receipt of the vaccination information, bill the owners of unlicensed dogs for a pet license. The duration of a dog or cat license may be equal to and run concurrent with the effective period of the rabies vaccination.

The Governor's amendment delays the effective date until July 2007, giving an additional six months to set up the program.

HB 386 Dogs, dangerous and vicious; expands definition thereof.

Summary as introduced:

Dangerous and vicious dogs. Expands the definition of a dangerous dog to include a dog that has, without provocation, chased, confronted, or approached a person in a threatening or aggressive manner such that a reasonable person would be fearful of an attack. Requires any ordinance adopted pursuant to this section to provide that an animal control officer may determine, after investigation, whether a dog is a

dangerous dog. Currently that authority is given at the discretion of the locality. This bill has been incorporated into HB 340.

02/01/06 House: Incorporated by Agriculture, Chesapeake and Natural Resources (HB340-Orrock)

HB 421 Solid waste management permits; need certification for locality where facility located.

Summary as passed House:

Solid waste management; permits-by-rule. Requires that permits for proposed solid waste management facilities or facility expansions be subject to analysis by the Director of the potential human health, environmental, transportation infrastructure, and transportation safety impacts and needs and an evaluation of comments by the host local government, other local governments and interested persons. The application for such permit must include certification from the locality that the new or expanded facility is consistent with the regional solid waste management plan or that the plan is in the process of being revised. Additionally, the bill requires that applications for permits-by-rule include a certification by the locality that the facility is consistent with the regional and local solid waste management plans.

HB 448 Litter control and recycling; increase percentage of grants awarded to localities.

Summary as introduced:

Litter control and recycling grants. Changes the formula for allocating litter control and recycling grants. The bill would increase the percentage of grants awarded to localities from the current 75% to 90%. The 20% of grants allocated to statewide and regional litter prevention recycling educational programs will be reduced to 5% and will be awarded to localities and nonprofits for litter prevention and recycling. Up to 5% of the litter prevention and recycling grants will be allocated for administrative expenses.

HB 647 Solid waste management plans; units to maintain recycling and target rates.

Summary as passed House:

Solid waste management plans. Establishes a new regimen for credits that can be used in meeting a solid waste planning unit's recycling rate. Currently, a credit of one ton for each ton of recycling residue generated and deposited in a landfill, not to exceed one-fifth of the 25% requirement, is allowed in calculating the planning unit's recycling rate. This bill would not change the credit for recycling residue but, in addition, would extend a two percentage point credit for source reduction programs implemented within the planning unit, a ton-for-ton credit for solid waste material that is reused, and a ton-for-ton credit for any nonmunicipal solid waste material that is recycled. The current requirement that a planning unit maintain a minimum 25% recycling rate is reduced for less densely populated planning units or those with high unemployment rates. The bill stipulates that a planning unit not meeting its mandated recycling rate cannot be the sole reason for the denial of a permit or permit amendment for a new sanitary landfill, incinerator, or waste-to-energy facility. This bill is identical to SB 57.

HB 1055 Air emissions control; Department of Environment Quality shall promulgate regulations.

Summary as passed:

Air emission controls. Establishes a phased schedule for electric generating units in Virginia to reduce their emissions of sulfur dioxide, nitrogen oxide, and mercury. The Air Pollution Control Board is charged with promulgating the regulations that require specific numerical reductions in each pollutant. The bill allows regulated facilities to participate in the EPA-administered cap and trade system; however, the Board can prohibit facilities in nonattainment areas from purchasing allowances in order to meet their NO_x and SO₂ obligations. The bill also requires the Board to adopt the federal Clean Air Mercury Rule as well as adopt a state-specific rule for mercury. Under the state-specific rule, smaller electric generating units would be able to participate in the trading program. The medium size systems (American Electric Power) would not be able to demonstrate compliance under the state-specific rule by purchasing credits, but would be (i) allowed to obtain credits from facilities within their system and within 200 km of the Virginia border and (ii) able to sell excess credits. Although large systems (Dominion Resources) would not be able to demonstrate compliance under the state-specific rule by purchasing credits, they would be able to sell excess credits and would be able to use credits from Virginia facilities within their system to demonstrate compliance. Dominion Resources would be required to demonstrate early reductions in NO_x during 2007 and 2008, and these reductions can be banked or sold and used to demonstrate compliance in 2009. The Board is prohibited from imposing anything more stringent than the federal Maximum Achievable Control Technology rule for coke ovens for air toxics and steel smelters that accept scrap metal from automobile recycling subject to the mercury switch recycling program. Under the bill, the Department of Environmental Quality is required to conduct a detailed assessment of mercury deposition in Virginia to determine whether there is justification to undertake additional measures to control mercury emissions in Virginia. The Department's findings and recommendations are to be reported to the committees of oversight no later than October 15, 2008. This bill is identical to SB 651.

HB 1134 Sludge Management Permit Fee Fund; Bd. of Health to promulgate regulations for deposits therein.

Summary as passed House:

Sewage sludge fee. Requires the Board of Health to promulgate regulations establishing an initial fee of \$5,000 to be imposed upon permit holders and applicants and a fee not to exceed \$1,000 for the reissuance, amendment or modification of a permit. Fees collected are to be deposited into the Sludge Management Fund for the administration and management of the Department of Health's sewage sludge program. Currently, the Board may adopt regulations requiring permittees to pay a reasonable fee, not to exceed \$2,500, for the processing of the application for a sewage sludge permit.

HB 1150 Chesapeake Bay and Waters Clean-up and Oversight Act; created.

Summary as passed House:

Chesapeake Bay and Virginia Waters Clean-up and Oversight Act. Requires the Secretary of Natural Resources to develop a clean-up plan for the Chesapeake Bay and Virginia waters that have been designated as impaired. The plan will include measurable objectives, a description of the strategies to meet the plan's objectives, time frames for accomplishing the objectives, and a plan for disbursing funds for point and nonpoint pollution projects. The plan will also include an analysis of alternative funding mechanisms. The Secretary is to submit the plan by January 1, 2007, and is to submit a progress report on the clean-up semiannually.

HB 1185 Water Protection Permits; regulation of agricultural withdrawals.

Summary as passed:

VETO

Riparian rights for agriculture and livestock. Prohibits the requirement of a Virginia Water Protection Permit for any water withdrawal from a privately owned agriculture pond, emergency water storage facility, or other water retention facility that is located outside the path of regularly flowing surface waters. Riparian landowners are authorized to withdraw reasonable amounts of water for use on those lands for an agricultural operation, provided such withdrawals do not adversely impact other off-stream beneficial uses, fish and wildlife habitat, waste assimilation, or commercial navigation. Conditions and requirements of permits or certificates issued pursuant to this section for water withdrawal by such agricultural operations shall only include annual reporting and minimal requirements necessary to maintain in stream flow for the protection of the beneficial uses as stated in this subsection.

HB 1454 Wetlands and stream restoration; companies to file erosion & sediment control specifications.

Summary as passed House:

Wetlands mitigation banks. Allows any person who has created and operates an approved wetlands mitigation bank in multiple jurisdictions to annually file erosion and sediment control specifications for wetlands mitigation projects with the Virginia Soil and Water Conservation Board. The Board has 60 days to approve the specifications. If no action is taken within 60 days the specifications are deemed approved. Projects that are not covered by general specifications will have to comply with the local erosion and sediment control program. This bill will not become effective unless a specific appropriation has been approved in the general appropriation act to support this activity.

Patron: Scott, E.T.

HB 1457 Impaired waters; Water Control Board to evaluate attainability of meeting water quality standards.

Summary as passed House:

Impaired waters. Allows an aggrieved party to conduct a use attainability analysis in order to demonstrate that the attainment of the designated use for an impaired water body is not feasible. This analysis would be submitted to, and reviewed by, the State Water Control Board. The Board would then determine whether the development or implementation of the total maximum daily load should be delayed.

HB 1471 Mercury emission controls; prohibits Air Pollution Control Board from imposing.

Summary as introduced:

Mercury emission controls. Prohibits the State Air Pollution Control Board from imposing mercury emission controls that (i) are more stringent than the federal Clean Air Mercury Rule or (ii) would be imposed earlier than necessary for Virginia to comply with the federal Rule. The bill also prohibits the Board from adopting any regulation or agreement that might restrict a facility's (source's) participation in the national mercury trading program. This bill has been incorporated into HB 1055.

SENATE AGRICULTURE

SB 38 Agritourism Activity Liability; created.

Summary as passed Senate:

Agritourism activity liability. Limits the liability of persons engaged in the business of providing agritourism activities, which include activities carried out on a farm, ranch, or winery that allow members of the public to view or enjoy rural activities or natural activities and attractions. The immunity from liability applies only if the agritourism provider has posted a warning notice. Liability is not limited if the agritourism provider acts with negligence or willful or wanton disregard for the safety of the participant, has actual or imputed knowledge of a dangerous condition used in the activity and does not make the danger known to the participant, or intentionally injures the participant. In addition, the provider is required to plead the affirmative defense of assumption of risk of agritourism activity by the participant.

SB 57 Solid waste management plans; units to maintain recycling and target rates.

Summary as passed Senate:

Solid waste recycling rates. Establishes a new regimen for credits that can be used in meeting a solid waste planning unit's recycling rate. Currently, a credit of one ton for each ton of recycling residue generated and deposited in a landfill, not to exceed one-fifth of the 25% requirement, is allowed in calculating the planning unit's recycling rate. This bill would not change the credit for recycling residue but, in addition, would extend a two percentage point credit for source reduction programs implemented within the planning unit, a ton-for-ton credit for solid waste material that is reused, and a ton-for-ton credit for any nonmunicipal solid waste material that is recycled. The current requirement that a planning unit maintain a minimum 25% recycling rate is reduced for less densely populated planning units or those with high unemployment rates. The bill stipulates that a planning unit not meeting its mandated recycling rate cannot be the sole reason for the denial of a permit or permit amendment for a new sanitary landfill, incinerator, or waste-to-energy facility. This bill is identical to HB 647.

SB 106 Waste discharge permits; consent of local governing body required before Water Control Board issues.

Summary as passed:

Local consent to State Water Control Board permits. Requires an application for a new or modified individual Virginia Pollutant Discharge Elimination System permit or new or modified coverage under a general Virginia Pollutant Discharge Elimination System permit, authorizing direct or indirect discharge of stormwater runoff from a new municipal solid waste landfill into a local watershed protection district established and designated as such by city ordinance prior to January 1, 2006, to contain a certification from the local governing body of the city in which the discharge is to take place, that the discharge is consistent with the city's ordinance establishing and designating the local watershed protection district in order to be considered complete. The bill does not apply to any municipal solid waste landfill in operation on or before January 1, 2006. The bill expires on July, 1, 2026.

04/06/06 Governor: Acts of Assembly Chapter text (CHAP0478)

SB 200 Dogs; regulation of those that may be dangerous.

Summary as passed:

Control of dangerous and vicious dogs; registry; penalty. Requires the control of dangerous dogs within a statewide mandated framework. The bill imposes criminal penalties ranging from a Class 2 misdemeanor to a Class 6 felony for violations that result in injury to a person or death to a cat or dog. The bill expands the authority to petition a court to find a dog dangerous to any law-enforcement officer and makes that petition mandatory. A Virginia Dangerous Dog Registry is created to be maintained by the State Veterinarian; any change in the status of a dangerous dog is to be promptly submitted in writing. Surrender of a dog that is subject of a pending action to animal control shall not be in lieu of prosecution. The bill also (i) narrows the definition of "dangerous dogs" to include dogs that inflict injury to another cat or dog requiring the animal to be euthanized while also broadening safe harbor provisions; (ii) requires that a dog that has been found to be dangerous or vicious shall be spayed or neutered; and (iii) requires liability insurance in the amount of \$100,000 to be purchased by the owner of a dangerous dog, or in lieu of the insurance policy, the owner may obtain a surety bond. This bill is identical to HB 340 and HB 1039.

The Governor's amendments clarify that local governments have the authority to enact ordinances parallel to the statute regulating dangerous and vicious dogs and that localities may not invoke felony penalties for violation of local ordinances.

SB 242 Clean Smokestack Act; phased schedule for electric generating units to reduce emissions.

Summary as introduced:

Reductions of air emissions. Establishes a phased schedule for all electric generating units in Virginia to

reduce their emissions of sulfur dioxide, nitrogen oxide, and mercury. The Air Pollution Control Board is charged with promulgating the regulations that require specific numerical reductions in each pollutant. The bill also requires each electric generating unit that is located within 1,000 meters of an occupied dwelling or body of water to complete a modeling analysis assessing the effects of emissions from the facility on the surrounding area. This analysis is to be submitted to the Department of Environmental Quality, which shall review each report. The Department is required to implement a strategy to achieve reductions in mercury emissions. The Department also is to conduct an analysis of the issues related to development and implementation of standards and programs to control emissions of CO₂ from stationary sources, which is to be submitted to the legislative oversight committees and the Board by November 1, 2008. This bill has been incorporated into SB 651.

(SB 651 passed both Chambers; Governor's recommendations added.)

SB 274 Stormwater management program; certain localities required to adopt thereto.

Summary as introduced:

Stormwater management; civil penalty. Requires localities located in Tidewater and those that are classified as an MS4 under the federal Clean Water Act to adopt a local stormwater management program in accordance with a schedule established by the Virginia Soil and Water Conservation Board. The locality is to adopt its stormwater program between 12 and 18 months after the effective date of the Board's regulation that establishes local program criteria and delegation procedures. Under current law these localities are to adopt a program by July 1, 2006. Any locality that isn't in Tidewater or classified as an MS4 can choose to administer its own program (seek delegation) within six months following the effective date of the regulation. The bill also increases the maximum fine for violation of the provisions of the stormwater law from a civil penalty of \$25,000 to \$32,500.

SB 462 State-owned properties; state agencies to identify & maintain historic resources, report.

Summary as passed:

Preservation of state-owned properties. Requires the Department of Historic Resources to develop a biennial report on the stewardship of state-owned properties. The report is to include a priority list of the Commonwealth's most significant state-owned properties, which are threatened with the loss of historic integrity or function, that are on or eligible for the Virginia Landmarks Register. The report is to be disseminated to affected state agencies. Each agency that owns property included in the report is required to consult with the Department within 60 days of receiving the report and decide on the possible designation of unlisted properties as well as determine the feasibility of upgrading threatened historic properties.

SB 644 Water Quality Improvement Fund; disbursement of grant moneys.

Summary as passed Senate:

Water Quality Improvement Fund disbursements. Allows new or expanding publicly owned treatment works that are not defined as significant dischargers, but are subject to the State Water Control Board's new nutrient control requirements and will have to install nutrient removal technology, similar to the significant dischargers, to apply for matching grant moneys from the Water Quality Improvement Fund. Currently, only those plants that are defined as significant dischargers are eligible to receive grants from the Fund. The bill also authorizes the Department of Environmental Quality to utilize the Fund for design and installation of nutrient removal technologies. Currently, grants to sewage treatment facilities are allocated for two uses, with the larger portion used for biological nutrient removal facilities and other appropriate nutrient removal technologies, and the smaller portion being used for only state-of-the-art facilities. The bill would remove this state-of-the-art restriction on the smaller portion.

SB 651 Air emissions control; Department of Environmental Quality shall promulgate regulations.

Summary as passed:

Air emission controls. Establishes a phased schedule for electric generating units in Virginia to reduce their emissions of sulfur dioxide, nitrogen oxide, and mercury. The Air Pollution Control Board is charged with promulgating the regulations that require specific numerical reductions in each pollutant. The bill allows regulated facilities to participate in the EPA-administered cap and trade system; however, the Board can prohibit facilities in nonattainment areas from purchasing allowances in order to meet their NO_x and SO₂ obligations. The bill also requires the Board to adopt the federal Clean Air Mercury Rule as well as adopt a state-specific rule for mercury. Under the state specific rule, smaller electric generating units would be able to participate in the trading program. Dominion Resources would be required to demonstrate early reductions in NO_x during 2007 and 2008, and these reductions can be banked or sold and used to demonstrate compliance in 2009. The Board is prohibited from imposing anything more stringent than the federal Maximum Achievable Control Technology rule for coke ovens for air toxics and steel smelters that accept scrap metal from automobile recycling subject to the mercury switch recycling program. Under the bill, the Department of Environmental Quality is required to conduct a detailed assessment of mercury deposition in Virginia to determine whether there is justification to undertake additional measures to control mercury emissions in Virginia. The Department's findings and recommendations are to be reported to the committees of oversight no later than October 15, 2008. This bill is identical to HB 1055.

The Governor's amendment adds that *the Board* shall prohibit any electric generating facility located within a nonattainment area from meeting its mercury compliance obligations through the purchase of allowances from another facility, except that such facilities shall be able to demonstrate compliance with

allowances allocated to another facility that is under the control of the same owner or operator or under common control by the same parent corporation and is located within 200km of Virginia's border.

HB 78 Zoning ordinance; reconstruction/restoration of involuntarily damaged or destroyed nonconformities.

Summary as passed:

Reconstruction and restoration of certain damaged or destroyed nonconformities. Provides that if a building is damaged or destroyed by a natural disaster, the zoning ordinance may require that such building be repaired, rebuilt or replaced to eliminate or reduce the nonconforming features to the extent possible, without the need to obtain a variance. If such building cannot be repaired, rebuilt or replaced except to restore it to its original nonconforming condition, the owner shall have the right to do so.

HB 93 Environmental site assessments; local government to adopt ordinances requiring.

Summary as passed:

Subdivision and zoning ordinances; environmental site assessments. Allows localities to include in their subdivision or zoning ordinances provisions for requiring and considering Phase I environmental site assessments based on the anticipated use of the property proposed for the subdivision or development and Phase II environmental site assessments, if the locality deems such to be reasonably necessary, based on findings in the Phase I assessment. A reasonable fee may be charged for the review of such environmental assessments. Such ordinances may also include provisions for requiring disclosure and remediation of contamination and other adverse environmental conditions of the property prior to approval of subdivision and development plans. The bill also provides that the residential property disclosure statement provided by the owner of residential real property to a purchaser include disclosure of adverse environmental site conditions. This bill is identical to SB 224.

HB 128 Condominium Act; authorizing condominium association to be applicants in land use matters.

Summary as passed House:

Condominium Act; authorizing condominium association to be applicants in land use matters.

Provides that the declarant is authorized to execute, file, and process any subdivision, site plan, zoning, or other land use applications or disclosures related to the condominium during the period that the

condominium is under his control. The bill also provides that once the condominium is no longer under the control of the declarant, the authority to execute such land use applications shall belong to the executive organ of the unit owners' association or a representative appointed by the unit owners' association. In addition, the bill clarifies the owner of condominiums for purposes of compliance with the disclosures in land use proceedings pursuant to § 15.2-852 and disclosures of real parties in interest pursuant to § 15.2-2289.

HB 147 Service districts; localities may contribute from general fund for certain government services.

Summary as passed House:

Powers of service districts. Powers of service districts. Provides that a locality creating a service district may contribute, from its general fund, an appropriate amount of funds to pay for certain authorized governmental services. The bill also allows a governing body creating a service district to accept the allocation, contribution, or reimbursement of funds from any locality for the costs, expenses, and charges incident to the acquisition, construction, reconstruction, maintenance, alteration, improvement, expansion, and the operation or maintenance of any facilities and services in the district. Currently, the nonexhaustive list of available sources from which such governing body may accept the allocation, contribution, or reimbursement of funds extends only to persons, authorities, transportation districts, and state and federal agencies. This bill incorporates HB 149.

HB 148 Stormwater management program; includes enlargement, improvement and maintenance of dams.

Summary as passed House:

Stormwater regulation. Provides that income derived from stormwater control program service charges shall be dedicated special revenue and may be used only to pay or recover costs for specified purposes, including the improvement or maintenance of dams, whether publicly or privately owned, that serve to control stormwater. This bill incorporates HB 268.

HB 149 Service districts; change in sources of revenue for localities.

Summary as introduced:

Powers of service districts. Allows a governing body or bodies creating a service district to accept the allocation, contribution, or funds of, or to reimburse from, any locality for the costs, expenses, and charges incident to the acquisition, construction, reconstruction, maintenance, alteration, improvement, expansion, and the operation or maintenance of any facilities and services in the district. Currently, the nonexhaustive list of available sources from which such governing body or bodies may accept the allocation, contribution, or funds of, or reimbursements from, extends only to persons, authorities, transportation districts, and state and federal agencies. This bill has been incorporated into HB 147.

HB 621 Charter; City of Richmond.

Summary as passed:

Charter; City of Richmond. Amends the charter by (i) clarifying that the council may adopt the budget at either a regular or special meeting, (ii) deleting an additional requirement for introduction of ordinances at special meetings, (iii) clarifying the duties of the city attorney and explicitly granting authority to represent more than one city official, department, or other entity that are parties to the same transaction, (iv) granting the mayor authority to employ special counsel in instances where the city attorney has a conflict of interests (v) clarifying that the mayor or his designee may attend closed meetings of the council unless the council determines that such inclusion shall be detrimental to the purpose of the

council's deliberations, (vi) requiring the chief administrative officer to attend, or be represented at, all open meetings of the council, (vii) making several clarifications to the budgetary process and (viii) making numerous technical or housekeeping changes. This bill contains an emergency clause. This bill is identical to SB 81.

HB 781 Employees and residents, local; right to express opinions to elected officials.

Summary as passed House:

Rights of residents and employees to contact elected officials. Provides that every local government employee has the right to express opinions to state or local elected officials on matters of public concern. Retaliation based upon a local government employee's exercise of such right is unlawful. This measure tracks the language in § 2.2-2902.1 that is applicable to state employees. In addition, the bill provides that certain local auditors shall be responsible for administering a telephone hotline, and a website, if cost-effective, through which local employees and residents may report incidences of fraud, waste, or abuse in the administration of local government. Accordingly, auditors are authorized to inform local employees of the hotline through a variety of measures. Furthermore, the auditors are required to investigate authentic allegations of fraud, waste, or abuse.

03/31/06 Governor: Acts of Assembly Chapter text (CHAP0118)

HB 881 Cable service; establishes franchising procedures.

Summary as introduced:

Cable service; franchises; competition. Establishes franchising procedures that authorize eligible video providers, which include certificated providers of telecommunications services with previous consent to use the public rights-of-way, to provide cable service and other video service. Upon compliance with the requirements established by this measure, (i) the previous consent granted to an eligible video provider to

use the public rights-of-way for telecommunications services is deemed a franchise authorizing it to use the rights-of-way to provide cable service and (ii) eligible video providers are granted a 15-year franchise. However, in order to hold the franchise, an eligible video provider shall file a certification at least 30 days prior to offering cable service in which it undertakes to comply with specific requirements. After the certificate is filed, the locality has 120 days to pass any required ordinances to regulate the provision of cable service. Localities may grant cable operators that obtained franchises prior to the enactment of this measure consent to obtain a franchise under the provisions applicable to eligible video providers after considering certain criteria. The grant of a franchise or the renewal of a franchise does not obligate an eligible video provider to provide cable service throughout the locality or in any specific territory within the locality.

HB 1027 Traffic incidents; reimbursement of expenses incurred in responding to by volunteer fire, etc.

Summary as passed:

Expenses incurred in responding to DUI or other traffic incidents. Authorizes a locality to provide, by ordinance, that a person convicted of violating a DUI or other traffic statute shall be liable for restitution at the time of sentencing to the locality, or a responding law enforcement or volunteer fire or rescue squad, for reasonable expenses incurred by such locality, or responding law enforcement or volunteer fire or rescue squad when providing an appropriate emergency response to any accident or incident related to such violation. Currently, the Code authorizes a locality to provide that a person convicted of violating a DUI or other traffic statute shall be liable in a separate civil action for such reasonable expenses incurred.

HB 1144 Conveyance of property; additional method for subdivision of lot to family member.

Summary as passed House:

Additional method for subdivision of a lot for conveyance to a family member. Allows a locality to include in its subdivision ordinance provisions permitting a single division of a lot or parcel for the purpose of sale or gift to a member of the immediate family of the property owner, if (i) the property has been owned for at least 15 consecutive years by the current owner or member of the immediate family and (ii) the property owner agrees to place a restrictive covenant on the subdivided property that would prohibit the transfer of the property to a nonmember of the immediate family for a period of 15 years. The locality may require that the subdivided lot is no more than one acre and otherwise meets any other express requirement contained in the Code of Virginia or imposed by the local governing body.

HB 1396 Grass; adds Hanover to counties authorized to require property owners to cut, if exceeds height.

Summary as introduced:

Authority to cut grass. Adds Hanover County to the list of counties with authority to require that the owner of occupied residential real property cut the grass or lawn area of less than one-half acre on such property when growth on the grass or lawn area exceeds 12 inches in height. Hanover County may, after reasonable notice, have the grass or lawn area cut by its agents or employees, in which event the cost and expenses thereof shall be chargeable to and paid by the owner of the property and may be collected by the county as taxes and levies are collected.

HB 1435 Farm wineries; local regulation thereof, report.

Summary as passed:

Zoning; agricultural districts; farm wineries. Provides that localities may not require that a special exception or special use permit be obtained for the processing of wine by licensed farm wineries. Also, no locality may adopt any requirements for special exceptions or special use permits relating to licensed farm wineries that would be more restrictive than its requirements in effect as of January 1, 2006. Further, any special exception or special use permit in effect as of January 1, 2006, shall remain in effect until July 1, 2007, unless such exception or permit is either no longer required by the locality or is amended to be less restrictive. Other provisions are also included that are generally intended to temporarily preserve the status quo while the Secretary of Agriculture and Forestry undertakes a study of issues surrounding the farm winery industry. The results of such study are to be reported to the 2007 Session of the General Assembly.

HB 1506 Proffered cash payments; locality may accept conditions if has had population growth of 5% or more.

Summary as passed House:

Proffered cash payments. Provides that a locality may accept proffered conditions if such locality has had population growth of five percent or more from the next-to-latest to latest decennial census year, based on population reported by the United States Bureau of the Census. In addition, the bill provides that a zoning ordinance may include and provide for the voluntary proffering in writing, by the owner, of reasonable conditions, including the payment of cash for any off-site road or transportation improvement that is adopted as an amendment to the required comprehensive plan and incorporated into the capital improvements program. The bill further provides that a locality may utilize any cash payments proffered for any road or transportation improvement that is incorporated into the capital improvements program as its matching contribution under the present revenue-sharing fund program for highway systems in certain counties. This bill incorporates HB 1520. The Governor offered minor recommendations to this legislation.

HB 1513 Transportation planning; coordination of state and local.

Summary as passed House:

Coordination of state and local transportation planning. Provides that prior to adoption of any comprehensive plan or amendment the locality shall submit such plan or amendment to the Department of Transportation for review and comment. The Department shall provide written comment on the proposed plan or amendment within 90 days of receipt thereof. Also, upon submission to a locality of an application for rezoning, the locality shall submit such application to the Department of Transportation within 10 business days of receipt thereof. Such application shall include a traffic impact statement if required by the locality by ordinance. Within 45 days of its receipt of such application, the Department shall either (i) provide written comment on the rezoning application, or (ii) schedule a meeting, to be held within 60 days of its receipt of the application, with the local planning commission or other agent and the applicant to discuss potential modifications to the application to address any concerns or deficiencies. Furthermore, upon submission to a locality of a subdivision plat or a site plan or plan of development, the locality shall submit such plat or plan to the Department of Transportation in accordance with § 15.2-2260 within 10 business days of receipt of the plat or plan. The bill also provides that a local comprehensive plan may include the designation of new and expanded transportation facilities and recommendations that support the planned development of the territory covered by the plan. This bill incorporates HB 1609. This bill is identical to SB 699.

HB 1521 Comprehensive plans; road improvements.

Summary as passed:

Comprehensive plans and official maps; road improvements. Requires that the comprehensive plan shall be general in nature, in that it shall designate the general or approximate location, character, and extent of each road and transportation improvement shown on the plan. The bill also requires that the comprehensive plan include an official map that shall show road and transportation improvements, including the cost of such road and transportation improvements, which are sufficient to meet the current and future needs of residents in the locality while considering the current and future needs of the planning district within which the locality is situated. The bill further provides that the comprehensive plan may include, but need not be limited to, the designation of a system of community service facilities such as sports playing fields and the designation of areas for various types of public and private development and use such as active and passive recreation. In addition, the local planning commission shall, in the preparation of a comprehensive plan, survey and study road and transportation improvements and the costs thereof. Furthermore, the comprehensive plan shall recommend methods of implementation, which may include, but need not be limited to, a recreation and sports resource map. This bill incorporates HB 1529.

HOUSE COMMERCE AND LABOR

HB 439 Sewage treatment facilities; establishing a governing board.

Summary as passed House:

Sewage treatment facilities; governing board. Requires that certain entities that provide sewerage services to residents of the Commonwealth and to another state be managed by a governing board that is comprised of an equal number of residents of Virginia and of the other state. The requirement applies to such entities that operate a sewage treatment facility located in Virginia that has a capacity of at least five million gallons per day and was financed through the Virginia Revolving Loan Fund. The number of members of the governing board is determined based on the number of Virginia localities in which the entity provides sewerage services, with the governing body of each such locality appointing two members. If the members of the governing board deadlock on an issue pertaining to the management of the entity's business and affairs, one-half of the members of the board may petition the State Corporation Commission to arbitrate the issue over which the board is deadlocked. If the articles of incorporation, bylaws, charter, or other organic document of such an entity that was in existence prior to July 1, 2006, is not amended by January 1, 2008, to comply with the requirements regarding the governing board, then the locality wherein the sewage treatment facility is located is authorized to acquire the facility and related property, which acquisition may be by condemnation for the purpose of providing sewerage service to persons residing within the Commonwealth and the Bluestone watershed.

HB 1404 Cable television systems; licensing and regulation thereof.

Summary as passed:

Licensing and regulation of cable television systems. Establishes a new procedure by which cable operators may obtain authorization to operate cable systems in localities. The new procedure provides for localities to grant ordinance cable franchises as an alternative to negotiated cable franchises. Ordinance cable franchises may be requested by certificated providers of telecommunications services with previous consent to use a locality's rights-of-way, after requesting to negotiate a cable franchise agreement. Upon receipt of an application for an ordinance cable franchise, the locality shall adopt necessary ordinances within 120 days. A locality granting an ordinance franchise may, if it currently has fewer than three public, educational or governmental (PEG) channels, obtain up to three PEG channels from all cable operators. A locality that has approved a cable franchise in the 12 months preceding July 1, 2006, is exempted from provisions of this measure until an existing franchise expires.

SENATE COMMERCE AND LABOR

SB 77 Post-Disaster Anti-Price Gouging Act; time of disaster, declared state of emergency.

Summary as introduced:

Virginia Post-Disaster Anti-Price Gouging Act. Provides that the duration of a "time of disaster," which currently is the shorter of the period of a declared state of emergency or the 30 days following the natural disaster or other occurrence that resulted in the Governor's or President's declaration of the state of emergency, may be extended to include the 30 days that follow an extension or renewal of the state of emergency. It is unlawful for a supplier, during the time of disaster, to sell necessary goods and services at an unconscionable price within the area for which a state of emergency has been declared.

04/05/06 Governor: Acts of Assembly Chapter text (CHAP0362)

SB 262 Virginia Energy Plan; created.

Summary as enacted with Governor's Recommendation:

Virginia Energy Plan. Establishes an energy policy for the Commonwealth and directs the Division of

Energy of the Department of Mines, Minerals and Energy, in consultation with the State Corporation Commission, Department of Environmental Quality, and Virginia Center for Coal and Energy Research, to prepare, by July 1, 2007, a ten-year comprehensive Virginia Energy Plan to implement the Commonwealth's energy policy. As part of the Energy Plan, the Division of Energy and other agencies shall develop a system for measuring the extent to which parcels are suitable for the siting of wind or solar energy facilities. After July 1, 2007, upon receipt of a recommendation from the Department of General Services, a local governing body, or a parcel's owner that a parcel is a potentially suitable location for such an energy facility, the Division shall analyze the parcel's suitability. The measure also provides that it is the Commonwealth's policy to support federal efforts to determine the extent of natural gas resources 50 miles or more offshore and to support the inclusion of the Atlantic Planning Areas in the federal Mineral Management Service's draft environmental impact statement for natural gas exploration 50 miles or more off the Atlantic shoreline. It is declared to be the policy of the Commonwealth to support federal efforts to examine the feasibility of off-shore wind energy being utilized in an environmentally responsible fashion. Other elements of the bill (i) require Dominion Virginia Power to apply for annual fuel factor adjustments to its electricity rates commencing July 1, 2007, and allow the SCC to require that 40% of any increase in fuel tariffs for the year 2007-2008 be deferred and recovered during the period from July 1, 2008, through December 31, 2010; (ii) create a state personal income tax deduction for 20% of the cost of certain energy efficient equipment or appliances, up to \$500 per year; (iii) require state agencies to ensure that the design and construction of state-owned buildings comply with energy standards to be established by Department of General Services; (iv) establish a Clean Coal Technology Research Fund, to be administered by the Virginia Center for Coal and Energy Research and used to finance research initiatives at state institutions of higher education and to encourage qualified state educational institutions to apply for federal grants to finance a center of excellence for advancing new clean coal technologies; (v) direct the Commonwealth Transportation Board to encourage the use of biodiesel and other alternative fuels, to the extent practicable, in vehicles used to provide public transportation; (vi) create the Virginia Coastal Energy Research Consortium, to include Old Dominion University, the Virginia Institute of Marine Science, the Virginia Tech Advanced Research Institute, James Madison University, and Norfolk State University, to serve as an interdisciplinary study, research, and information resource on coastal energy issues; (vii) prohibit community associations from enacting any provisions restricting solar power or the use of solar energy collection devices on units or lots that are part of the development, except to the extent provided in the applicable instruments, declaration or rules, and authorizes community associations to prohibit or restrict the installation and use of such solar energy collection devices on the common elements or common areas; (viii) state that it is the policy of the Commonwealth to support federal action that provides for increasing the Corporate Average Fuel Efficiency standards; (ix) establish a program of grants of 0.85 cents for each kilowatt hour of electricity produced by a corporation from certain renewable energy resources; (x) establish a program of grants for 15% of the cost incurred in installing photovoltaic property, solar water heating property, or wind-powered electrical generators, up to \$2,000 for each system of photovoltaic property, \$1,000 for each system of solar water heating property, and \$1,000 for each system of wind-powered electrical generators; (xi) exempt from property taxation any certified pollution control equipment and facilities used in collecting, processing, and distributing landfill gas and other gas recovered from waste products; (xii) require the State Corporation Commission and Secretary of Natural Resources to develop, by December 1, 2006, a proposal for a coordinated review of permits for any energy project that requires an environmental permit and a certificate of public convenience and necessity; and (xiii) sunset the provisions of the bill that establish the clean coal technology research fund, Coastal Energy Research Consortium, Renewable Electricity Production Grant Program, and Photovoltaic, Solar, and Wind Energy Utilization Grant Program if they are not funded by July 1, 2009.

4/19/06 The Governor's amendments were stricken upon his request and a Senate substitute was adopted. The summary above is of the enacted legislation with the governor's recommendations.

SB 507 Sewage treatment facilities; establishing a governing board.

Summary as passed Senate:

Sewage treatment facilities; governing board. Requires that certain entities that provide sewerage services to residents of the Commonwealth and to another state be managed by a governing board that is comprised of an equal number of residents of Virginia and of the other state. The requirement applies to such entities that operate a sewage treatment facility located in Virginia that has a capacity of at least five million gallons per day and was financed through the Virginia Revolving Loan Fund. The number of members of the governing board is determined based on the number of Virginia localities in which the entity provides sewerage services, with the governing body of each such locality appointing two members. If the members of the governing board deadlock on an issue pertaining to the management of the entity's business and affairs, one-half of the members of the board may petition the State Corporation Commission to arbitrate the issue over which the board is deadlocked. If the articles of incorporation, bylaws, charter, or other organic document of such an entity that was in existence prior to July 1, 2006, is not amended by January 1, 2008, to comply with the requirements regarding the governing board, then

the locality wherein the sewage treatment facility is located is authorized to acquire the facility and related property, which acquisition may be by condemnation for the purpose of providing sewerage service to persons residing in the Commonwealth and the Bluestone Watershed.

SB 688 Public utilities; SCC to establish procedure for lines that cross railroads.

Summary as passed Senate:

Public utility lines crossing railroads. Establishes a procedure for the State Corporation Commission to determine matters pertaining to the construction and operation of municipal water, sewer, and telecommunications lines, wires, pipes, and conduits that cross railroads. The application shall include standard railroad liability protection insurance. If the Commission grants an application requiring the railroad to grant to the municipality a license for such crossing, it may require the payment to the railroad company of damages and a fee, which fee shall not exceed the actual costs reasonably expected to be incurred by the railroad company as a result of the crossing and the periodic inspection of such works, but shall take into consideration the system-wide administrative and other costs of implementing crossing agreements.

SB 707 Cable service; establishes franchising procedures.

Summary as introduced:

Cable service; franchises; competition. Establishes franchising procedures that authorize eligible video providers, which include certificated providers of telecommunications services with previous consent to use the public rights-of-way, to provide cable service and other video service. Upon compliance with the requirements established by this measure, (i) the previous consent granted to an eligible video provider to use the public rights-of-way for telecommunications services is deemed a franchise authorizing it to use the rights-of-way to provide cable service and (ii) eligible video providers are granted a 15-year franchise. However, in order to hold the franchise, an eligible video provider shall file a certification at least 30 days prior to offering cable service in which it undertakes to comply with specific requirements. After the certificate is filed, the locality has 120 days to pass any required ordinances to regulate the provision of cable service. Localities may grant cable operators that obtained franchises prior to the enactment of this measure consent to obtain a franchise under the provisions applicable to eligible video providers after considering certain criteria. The grant of a franchise or the renewal of a franchise does not obligate an eligible video provider to provide cable service throughout the locality or in any specific territory within the locality.

HB 1537 Condemnation; allowing owners to relocate sport shooting ranges.

Summary as passed:

Condemnation; sport shooting ranges. Provides that any sport shooting range operating or approved for construction in the Commonwealth, which upon condemnation relocates to another site in the same locality, shall not be subject to any noise control standard more stringent than those in effect when the sport shooting range was originally approved for construction or began operating, whichever was earlier.

Also provides that a locality cannot subject a sport shooting range to noise control standards that are more stringent than the standards existing at the time the range was originally approved for construction or began operating, whichever was earlier.

HB 491 Real estate reassessment; notice of change.

Summary as passed House:

Real estate reassessment; notice. Requires localities to add onto the notice to taxpayers of real estate reassessments the amount of the immediately prior assessment amount, and if the tax rate that will apply to the new assessed value has been established, then the notice shall include such rate, the total amount of the new tax levy, and the percentage change in the new tax levy from the immediately prior one. If the tax rate that will apply to the new assessed value has not been established, then the notice shall include the time and place of the next meeting of the local governing body at which public testimony will be accepted on any real estate tax rate changes. Finally, if such meeting is more than 60 days from the date of the reassessment notice, the notice will include information about when the date of the meeting will be set and where it will be publicized. The bill incorporates HB 1298 (**Hall**).

HB 534 Motor fuels tax; DMV suggested changes.

Summary as passed House:

Motor fuels tax; DMV suggested changes; penalties. Eliminates registered and certified mail requirements for assessments; requires certified mail for license cancellation notices; prohibits use of letters of credit as security; allows for license denial or cancellation for failure to obtain a new or additional certificate of deposit; requires persons who transport motor fuel for hire to file monthly returns; establishes a Class 1 misdemeanor for willfully and intentionally applying for or collecting a refund on taxable fuel or for willfully and intentionally using fuel for a taxable purpose after a refund for the fuel has been issued. It also grandfathers licensed persons who have an irrevocable letter of credit with DMV prior to June 30, 2006, so they will not be required to replace such letters.

04/05/06 Governor: Approved by Governor-Chapter 594 (effective 7/1/06)

HB 540 Real estate taxes; exemption for certain elderly or disabled persons.

Summary as introduced:

Real property taxes; exemption for certain elderly or disabled persons. Increases, and makes uniform statewide, the maximum income and net worth amounts of elderly or disabled persons that localities may use in providing real estate tax exemptions for such persons (i) from \$50,000 to \$75,000 for annual income, and (ii) from \$200,000 to \$350,000 for net worth. The net worth cap is also increased by increasing from 10 to 20 the number of acres on which the person's home is located that can be excluded in calculating net worth. The bill states that an emergency exists and is effective upon passage.

Patron: **McClellan**

02/06/06 House: Incorporated by Finance (HB121-Marshall, R.G.)

(HB 121 passed both Chambers and was approved by the Governor.)

HB 560 Real estate tax; increases amount of exemptions for elderly or disabled in Northern Virginia.

Summary as introduced:

Real property tax exemption; elderly and disabled. For localities in Northern Virginia, increases from \$340,000 to \$500,000 the maximum financial worth cap a locality may impose in providing real estate tax exemptions to the elderly or disabled.

Patrons: Amundson, Moran, Plum, Rust and Scott, J.M.; Senators: Cuccinelli and Ticer

02/06/06 House: Incorporated by Finance (HB121-Marshall, R.G.)

(HB 121 passed both Chambers and was approved by the Governor.)

HB 568 Communications tax reform; revises services, report.

Summary as introduced:

Communications tax reform. Completely revises the taxation of communications services as follows. Applies a statewide communications sales and use tax to retail communication and video services on a competitively neutral basis. The communications sales and use tax rate will be 5% on the following: Local exchange, paging, inter-Exchange (both interstate and intrastate), cable television, satellite television, wireless, and VOIP.

A \$0.75 "911 Tax" will be applied to each local exchange line (landline) and the current \$0.75 "911 Fee" will continue to be applied to each wireless number.

The state communications sales and use tax, and state 911 fees and taxes replace the following currently billed taxes and fees: Local Consumer Utility Tax (LCUT), Local Gross Receipts Tax (BPOL) - (only the portion above 0.5% currently billed to customers, where applicable), Local E-911, Virginia Relay Fee, and the Cable Franchise Fee.

A statewide rights-of-way use fee will be applied to all cable TV service lines as is currently applied on all local exchange telephone lines. The rate of the fee will be the same as determined annually by the Virginia Department of Transportation in accordance with § 56-468.1 of the Virginia Code.

The sales and use tax, 911 tax, and the cable rights-of-way fee assessed on consumers of video services from a single provider will be remitted to the Virginia Department of Taxation, which will administer the distribution of the Communications Sales and Use Tax Trust Fund within 30 days of receipt of the collections for a given month. The rights-of-way use fee assessed on consumers of both cable video services and voice services from a single provider will be remitted in accordance with subsection I of § 56-468.1. The 911 fees will be remitted directly to the Wireless 911 Board for administration.

The redistribution of taxes and fees is intended to be revenue neutral to localities and the Wireless 911 Board and shall cover the current cost of the Virginia Relay Center.

The provisions of the act will be effective on January 1, 2007.

HB 569 Cigarette tax; increases penalty for failure to properly affix stamps.

Summary as passed House:

Cigarette tax; penalty for failure to properly affix stamps. Increases from \$250 to \$500 the penalty for failure to affix tax stamps to 100 or more packs of cigarettes. If the number of unstamped packs exceeds 500, it shall be prima facie of intent to defraud. If a person sells, transports, receives or possesses 3,000 or more packages of unstamped cigarettes, the Tax Department may impose a penalty, not to exceed \$2,500 per pack.

HB 1290 Machinery and tools tax; method of valuation thereof for income tax purposes.

Summary as passed:

VIETO

Machinery and tools tax; method of valuation. Requires commissioners of the revenue, in valuing machinery and tools to consider any bona fide, independent appraisal presented by the taxpayer. The bill would also provide that idle machinery and tools used in certain businesses be taxable as capital and subject to the State intangible personal property tax (the Commonwealth currently exempts intangible personal property from tax). Finally, the bill would require the Tax Commissioner to examine and report on certain related issues. This bill is identical to SB 260.

SB 85 Retail Sales & Use Tax; gratuities or service charges on meals excluded when calculating.

Summary as passed:

State and local sales and use tax and local taxes on meals; gratuities or service charges on meals.

Excludes from the sales price of meals all gratuities or service charges for purposes of calculating the sales and use tax and the local tax on meals; however the mandatory service charges or gratuities in excess of 20 percent would still be subject to the sales and use tax and the local meals tax. This bill is identical to HB 896.

04/03/06 Governor: Acts of Assembly Chapter text (CHAP0216)

SB 109 Governor's Development Opportunity Fund; changes thereto.

Summary as passed Senate:

Governor's Development Opportunity Fund. Makes several changes to the Governor's Development Opportunity Fund including prohibiting awards from the Fund being used to pay or guarantee the payment for any rental, lease, license, or other contractual right to use property.

For each five fiscal-year period, the bill would provide that one-third of the moneys in the Fund would be used for economic development projects in high unemployment areas. This distribution, however, would not be required if economic development prospects in such high unemployment areas are unable to fulfill applicable minimum private investment and new jobs requirements.

The bill would require that, as a condition of an award from the Fund, the average wage of new jobs created must be no less than the prevailing average wage in the county or city of the economic development project. However, for economic development projects located in a county or city with an annual average unemployment rate greater than the statewide average unemployment rate, the average wage of the new jobs would be required to be at least 85% of the prevailing average wage. In addition, the Secretary of Commerce and Trade may award a grant or loan from the Fund for projects paying less than 85% of the prevailing average wage that will be located in counties and cities with such unemployment rate if the Secretary makes a written finding that the economic circumstances in the area are sufficiently distressed that assistance to the county or city to attract the project is nonetheless justified.

As another condition of eligibility of an award from the Fund, the bill sets forth several elements that would have to be included in a contract between the political subdivision and the economic development prospect. These would include the fair market value of all funds that the Commonwealth commits to the project, the fair market value of all funds that the political subdivision agrees to provide to the project, and a negotiated formula for the repayment of moneys from the Fund if the economic development

prospect does not create the contractually required number of new jobs or does not satisfy minimum investment requirements.

The bill would require that all proposed contracts between political subdivisions and economic development prospects be reviewed by the Attorney General prior to execution. The Attorney General would be required to review the contract (i) for enforceability as to its provisions, and (ii) to ensure that it is in appropriate, legal form. The Attorney General would have seven days to provide any written suggestions, but the suggestions would be limited to enforceability of the contract or the appropriateness of the legal form of the contract.

The Governor's amendment allows withdrawals solely by the Governor.

SB 260 Idle machinery and tools tax; certain exemptions.

VETO

Summary as passed:

Classification and taxation of property. Provides that in valuing machinery and tools for taxation, the commissioner of the revenue shall, if requested in writing, consider an independent appraisal submitted by the taxpayer. The bill also provides that, for taxable years beginning on or after January 1, 2007, certain certified pollution control equipment and facilities are exempt from state and local taxation, pursuant to Section 6 of Article X of the Constitution of Virginia. Finally, the bill requires that the Tax Commissioner convene a working group to consider several issues relating to the assessment and valuation for appraisals relating to machinery and tools, and to report by November 1, 2006. Further, the bill clarifies that idle machinery and tools are intangible capital segregated for state, not local, taxation. This bill is identical to HB 1290.

The Governor's amendments remove the exemption of idle equipment.

SB 358 Real estate tax; exemption in redevelopment or conservation areas, etc.

Summary as passed:

Real property tax exemption in redevelopment or conservation areas or rehabilitation districts.

Authorizes local governing bodies to provide for the partial exemption from taxation of (i) new structures located in redevelopment or conservation areas or rehabilitation districts and (ii) other improvements to real estate located in redevelopment or conservation areas or rehabilitation districts. The partial exemption would be a percentage of the increase in assessed value as a result of the new structure or improvement or an amount not to exceed 50 percent of the construction cost of such structure or improvement. The local governing body would be allowed to establish criteria for qualifying real estate including, but not limited to, the square footage for new structures. The bill is contingent on a constitutional amendment authorizing the exemption.

SB 597 License tax, local; separate rate for fuel distributors.

Summary as passed:

Local license tax; retailers of certain fuels. Provides that when the Department of Mines, Minerals and Energy (DMME) determines that the weekly U.S. Retail gasoline price has increased by 20% or more in one week, and does not fall below that rate for 28 days, then the gross receipts taxes on fuel sales of a gas retailer made in the following licensing year shall not exceed 110% of the gross receipt taxes on fuel sales made in the license year of the increase. DMME must report its findings no later than January 30 each year to VML, VACO and the Virginia Petroleum, Convenience and Grocery Association.

SB 76 Freedom of Information Act; disclosure of procurement records under PPTA and PPEA.

Summary as passed:

Freedom of Information Act (FOIA); disclosure of procurement records under the Public-Private Transportation Act of 1995 (PPTA) and the Public-Private Education Facilities and Infrastructure Act of 2002 (PPEA). Revises the current FOIA exemption for records submitted by a private entity to a responsible public entity under the PPTA and the PPEA and formalizes the earmarking process or the protection of trade secrets, financial records, and other records submitted by a private entity, by requiring a written request for an exclusion from disclosure by the private entity and for a written determination by

the responsible public entity that such records will be protected from disclosure under certain circumstances. The bill also amends the PPTA and PPEA to require a public entity to post all accepted conceptual proposals, whether solicited or not. The required posting for responsible public entities that are state agencies, departments, and institutions, shall be on eVA (the Department of General Service's web-based electronic procurement program) and for responsible public entities that are local public bodies, posting shall be on the responsible public entity's website or by publication, in a newspaper of general circulation in the area in which the contract is to be performed, of a summary of the proposals and the location where copies of the proposals are available for public inspection. Local public bodies may also post on eVA, in the discretion of the local responsible public entity. The bill also requires that at least one copy of the proposals shall be made available for public inspection. The bill provides that nothing shall be construed to prohibit the posting of the conceptual proposals by additional means deemed appropriate by the responsible public entity so as to provide maximum notice to the public of the opportunity to inspect the proposals. The bill also requires the responsible public entity to provide an opportunity for public comment 30 days before the execution of an interim or comprehensive agreement. The bill provides that once the process of bargaining of all phases or aspects of an interim or comprehensive agreement is complete, but before an interim or a comprehensive agreement is entered into, a responsible public entity shall post the proposed agreement. Once an interim or comprehensive agreement has been executed, all procurement records, excluding trade secrets, financial information, and cost estimates, are available to the public upon request. The bill is a recommendation of the Freedom of Information Advisory Council.

SB 461 Public Records Act; timely destruction of records.

Summary as passed:

Virginia Public Records Act; timely destruction of records. Provides that each agency shall ensure that records created after July 1, 2006 and authorized to be destroyed or discarded under the Virginia Public Records Act, are destroyed or discarded within six months of the expiration of the record's retention period in accordance with the provisions of the Virginia Public Records Act. The bill also provides that all records previously authorized to be destroyed must be destroyed in a timely manner.

The Governor's amendment adds additional instructions for destruction of records which contain identifying information.

SENATE LOCAL GOVERNMENT

SB 51 Local gov't; voluntary settlements that provide for annexation take effect by certain date.

Summary as introduced:

Voluntary settlements among localities; effective date. Mandates that voluntary agreements that provide for municipal annexation shall take effect, in the absence of a stipulated date, on the first day of the month following court validation of the voluntary agreement. The Code currently provides for such agreements to take effect on January 1 of the year set forth in the agreement.

SB 81 Charter; City of Richmond.

Summary as passed Senate:

Charter; City of Richmond. Amends the charter by (i) clarifying that the council may adopt the budget at either a regular or special meeting, (ii) deleting an additional requirement for introduction of ordinances at special meetings, (iii) clarifying the duties of the city attorney and explicitly granting authority to represent more than one city official, department, or other entity that are parties to the same transaction, (iv) granting the mayor authority to employ special counsel in instances where the city attorney has a

conflict of interests (v) clarifying that the mayor or his designee may attend closed meetings of the council unless the council determines that such inclusion shall be detrimental to the purpose of the council's deliberations, (vi) requiring the chief administrative officer to attend, or be represented at, all open meetings of the council, (vii) making several clarifications to the budgetary process and (viii) making numerous technical or housekeeping changes. This bill contains an emergency clause. This bill is identical to HB 621.

SB 224 Environmental site assessments; localities to adopt ordinances requiring.

Summary as passed Senate:

Subdivision ordinances; site assessments; remediation. Allows localities to include in their subdivision or zoning ordinances provisions for requiring and considering Phase I environmental site assessments based on the anticipated use of the property proposed for the subdivision or development and Phase II environmental site assessments, if the locality deems such to be reasonably necessary, based on findings in the Phase I assessment. A reasonable fee may be charged for the review of such environmental assessments. Such ordinances may also include provisions for requiring disclosure and remediation of contamination and other adverse environmental conditions of the property prior to approval of subdivision and development plans. The bill also provides that the residential property disclosure statement provided by the owner of residential real property to a purchaser include disclosure of adverse environmental site conditions. This bill is identical to HB 93.

SB 374 Single-family dwellings; deletes certain optional provisions regarding clustering thereof.

Summary as passed Senate:

Clustering of single-family dwellings. Deletes certain optional provisions regarding the clustering of single-family housing and reinserts those provisions as mandatory provisions of zoning or subdivision ordinances for counties and cities that had a population growth rate of 10% or more from the next-to-latest to latest decennial census year. Such localities shall provide in their zoning or subdivision ordinances, applicable to a minimum of 40% of the unimproved land contained in residential and agricultural zoning district classifications, standards, conditions, and criteria for the clustering of single-family dwellings and the preservation of open space developments. In establishing such standards, conditions, and criteria, the localities may include any provisions they determine appropriate to ensure quality development, preservation of open space, and compliance with their comprehensive plan and land use ordinances.

The Governor's amendment exempts areas in an Air Installation Compatible Use Zone from the land where the clustering provisions must apply and extends the grandfathering date by six months.

SB 699 Transportation planning; coordination of state and local.

Summary as passed Senate:

Coordination of state and local transportation planning. Provides that prior to adoption of any comprehensive plan or amendment the locality shall submit such plan or amendment to the Department of Transportation for review and comment. The Department shall provide written comment on the proposed plan or amendment within 45 days of receipt thereof. Also, upon submission to a locality of an application for rezoning, the locality shall submit such application to the Department of Transportation within five days of receipt thereof. Such application shall include a traffic impact statement if required by the locality by ordinance. Within 30 days of its receipt of such application, the Department shall either (i) provide written comment on the rezoning application, or (ii) schedule a meeting, to be held within 60 days of its receipt of the application, with the local planning commission or other agent and the applicant to discuss potential modifications to the application to address any concerns or deficiencies. Furthermore, upon submission to a locality of a subdivision plat or a site plan or plan of development, the locality shall submit such plat or plan to the Department of Transportation in accordance with § 15.2-2260 within five days of receipt of the plat or plan. The bill also provides that a local comprehensive plan may include the designation of a planned system of new and expanded transportation facilities including, but not limited to, roads and highways and commuter rail lines, where appropriate. This bill incorporates SB 724. This bill is identical to HB 1513.

Summary as passed:

Study; undergrounding electrical transmission lines; report. Directs the Joint Legislative Audit and Review Commission to study the State Corporation Commission's analysis for determining the feasibility of undergrounding electrical transmission lines. In conducting its study, the Joint Legislative Audit and Review Commission shall examine (i) the factors considered by the State Corporation Commission in its analysis of the feasibility of installing underground electrical transmission lines; (ii) the effect on property values resulting from installing underground, as opposed to overhead, transmission lines; (iii) the costs considered by the State Corporation Commission in reviewing transmission line applications; and (iv) such other issues as it deems appropriate. This two-year study shall not be conducted unless it is funded in the Appropriation Act.

SENATE RULES

SB 261 Manufacturing Development Commission; created, report.

Summary as passed Senate:

Manufacturing Development Commission. Establishes the Manufacturing Development Commission as a legislative study commission. The Commission will be responsible for assessing manufacturing needs and formulating legislative and regulatory remedies to ensure the future of the manufacturing sector in Virginia. The Commission will expire July 1, 2009. This bill incorporates SJR 80.

The Governor's amendment adds the president of the Virginia Manufacturers Association to the Commission.

HOUSE SCIENCE AND TECHNOLOGY

HB 563 Court records; removes sunset provision on prohibiting information from court-controlled website.

Summary as passed:

Posting of court records on a website; personal information; sunset. Removes the sunset provision prohibiting certain information from being posted on a court-controlled website. The Compensation Board policies shall require court clerks to certify that proposed technology improvements of their land records will provide remote access to land records on or before July 1, 2007. If a court clerk provides remote access to land records on or before July 1, 2007, the clerk may then apply to the Compensation Board for an allocation from the Technology Trust Fund. The bill also requests the Virginia Information Technologies Agency to develop methods for the redaction of social security numbers from electronic land record documents and to submit a project budget to Compensation Board for approval.

HB 1198 Voice-over-Internet protocol service; eliminates the jurisdiction of the SCC to regulate.

Summary as passed:

Voice-over-Internet protocol service; E-911 notice. Eliminates the jurisdiction of the State Corporation Commission to regulate voice-over-Internet protocol service. Voice-over-Internet protocol service is excluded from the scope of the definitions of telephone service, telecommunications service, local exchange telephone service, and interexchange telephone service. Voice-over-Internet protocol service means any service that: (i) enables real-time, two-way voice communications; (ii) requires a broadband connection from the user's location; (iii) requires Internet protocol-compatible customer premises equipment (CPE); and (iv) permits users generally to receive calls that originate on the public switched telephone network and to terminate calls to the public switched telephone network. Providers of voice-over-Internet protocol service or wireless telecommunications service that do not include enhanced 911 (E-911) service are required to provide to their affected subscribers any notice of the absence of E-911 service that is required by the Federal Communications Commission (FCC). Consumers of voice-over-Internet protocol service will be subject to the special local tax for E-911 service. If the FCC requires providers to prepare and file a plan setting forth how providers of voice-over-Internet protocol service propose to develop and implement the capability for voice-over-Internet protocol service users to have E-911 service, the providers shall submit a copy of the plan to the State Corporation Commission and Wireless E-911 Services Board. Providers are not liable for damages for acts or omissions resulting from rendering service related to emergency calls unless the act or omission results from its gross negligence or willful misconduct.

HB 143 Highways, bridges, and interchanges; allows Transportation Board to name.

Summary as passed House:

Naming highways, bridges, and interchanges. Allows the Commonwealth Transportation Board to name highways, bridges, and interchanges that are part of any state highway system, provided they are not named for living people.

The Governor's amendment requires a locality to pass a resolution requesting to name a highway, bridge, or interchange before the Commonwealth Transportation Board will name it. The cost to produce, place, and maintain these signs will be borne by the locality where the signs are located.

HB 366 Mopeds, motorcycles, etc.; localities to adopt ordinances regualting noise therefrom.

Summary as introduced:

Mopeds, motorized scooters and skateboards. Allows localities to adopt ordinances regulating noise from mopeds and motorized scooters and skateboards. The bill also revises the definitions of "electric power-assisted bicycle," "moped," and "motorcycle," and defines "motorized skateboard or scooter" and "motor-driven cycle" and limits where motorized skateboards and scooters and motor-driven cycles may lawfully be operated.

HB 665 Outdoor advertising; vegetation control.

Summary as passed:

Outdoor advertising; vegetation control. Establishes a consistent statewide standard for vegetation control throughout the Commonwealth, including inside municipalities. The bill would clearly establish applicability of the statewide standard inside municipalities and throughout the Commonwealth, but also respect the beautification projects of local governments, by granting VDOT the authority to impose on a billboard company requesting approval of a vegetation control permit, the obligation to relocate or replant vegetation according to a landscaping plan approved by VDOT, at the sole cost of the billboard company.

HB 676 VDOT; Commissioner to report on actions & initiatives that involve outsourcing & privatization.

Summary as introduced:

Annual report by CTC to General Assembly. Requires the Commonwealth Transportation Commissioner (CTC) annually to report in writing to the General Assembly, no later than November 30 of each year, on all actions, accomplishments, achievements, and initiatives of the Virginia Department of Transportation in the preceding fiscal year that involved outsourcing, privatization, and downsizing. The

bill further requires the CTC to provide, in writing to the General Assembly, detailed and specific plans for outsourcing, privatization, and downsizing in the current fiscal year.

HB 792 Subdivision streets; do not need to meet VDOT standards if they serve fewer than 3 families per mile.

Summary as introduced:

Subdivision streets; taking of streets into state secondary highway system. Provides that subdivision streets do not need to meet VDOT standards if they serve fewer than three families per mile, and that VDOT cannot refuse to honor any request to take a subdivision street into the state secondary system because the street does not meet VDOT standards if the street serves fewer than three families per mile. This bill has been incorporated into HB 1543.

HB 809 Primary and secondary highway systems; projects undertaken by counties.

Summary as passed House:

Primary and secondary system highway projects undertaken by counties. Grants counties carrying out construction projects under § 33.1-75.3 the same power to enter property to survey transportation projects granted the Commonwealth Transportation Commissioner. The bill also provides that (i) any county without an existing franchise agreement shall have the same authority as the Department pertaining to the relocation of utilities and (ii) whenever so requested by any county, funding of any project may be supplemented solely by state funds to avoid complying with additional federal requirements, provided that a determination has been made by the Department that adequate state funds are available to fully match federal funds and the Department can meet its federal obligation authority.

HB 1515 Rural Addition Program; funds allocated to certain counties.

Summary as introduced:

Rural Addition Program. Provides that neither the Commonwealth Transportation Board nor the Commonwealth Transportation Commissioner shall promulgate regulations diminishing funds allocated or allocable to any county with a population of less than 40,000 for use under the Rural Addition Program by reason of not having met subdivision ordinance requirements. This bill has been incorporated into HB 1543.

Patron: Kilgore

02/09/06 House: Incorporated by Transportation (HB1543-Fralin)

(HB 1543 PASSED BOTH Chambers and was approved by the Governor.)

HB 1543 Rural Addition Program; funds allocated to any county.

Summary as passed:

Rural Addition Program. Provides that the Commonwealth Transportation Board and the Commonwealth Transportation Commissioner cannot diminish funds allocated or allocable to any county for use under the Rural Addition Program because of a county ordinance authorizing the use of private roads not built to standards set by the Department of Transportation or construction of subdivisions streets built to standards other than those established by VDOT. The bill further provides that, in those counties where the bill is applicable, a local ordinance must state that any and all streets that are not constructed to meet the standards necessary for inclusion in the system of state highways must be privately maintained and will not be eligible for acceptance into the system of state highways unless improved to current Department of Transportation standards with funds other than those appropriated by the General Assembly and allocated by the Commonwealth Transportation Board. This bill incorporates HB 792 and HB 1515.

SB 87 Outdoor advertising; vegetation control permit.

Summary as passed:

Outdoor advertising; vegetation control. Establishes a consistent statewide standard for vegetation control throughout the Commonwealth, including inside municipalities. The bill would clearly establish applicability of the statewide standard inside municipalities and throughout the Commonwealth, but also respect the beautification projects of local governments, by granting VDOT the authority to impose on a billboard company requesting approval of a vegetation control permit, the obligation to relocate or replant vegetation according to a landscaping plan approved by VDOT, at the sole cost of the billboard company.

SB 307 Urban Highway Congestion Mitigation Fund; created.

Summary as introduced:

Urban Highway Congestion Mitigation Fund. Establishes the Urban Highway Congestion Mitigation Fund, consisting of an annual allocation by the Commonwealth Transportation Board of \$250 million from funds available for highway construction projects. The Fund would be used to make allocations and grants to cities and urban counties for the construction of highway projects that would result in substantial mitigation of local and regional highway congestion. This bill has been referred for study under SJR 60.

SB 437 Transportation Board; election of certain members by legislative appointing authorities.

Summary as introduced:

Commonwealth Transportation Board; election of certain members by legislative appointing authorities. Provides for the appointment of the five at-large citizen members of the Commonwealth Transportation Board by the Speaker of the House of Delegates, who shall appoint three of the five members, and the Senate Committee on Rules, which shall appoint the other two members. The Governor shall continue to appoint the remaining citizen members who must be residents of the nine construction districts. The bill will take effect only upon approval of the voters of a constitutional amendment to provide a six-year term for the Governor. This bill is a recommendation of the Joint Subcommittee to Study the Balance of Powers Between the Legislative and Executive Branches pursuant to HJR 707 (2005). This bill has been incorporated into SB 304.

SB 720 Highway user fees; localities may establish.

Summary as passed Senate:

Highway user fees. Provides that, when the capacity of any system of state highways or a portion thereof is expanded by construction or reconstruction, the Commonwealth Transportation Commissioner may enter into agreements with localities, authorities, and transportation districts to establish highway user fees for highways that the localities, authorities, and transportation districts maintain. The bill also allows any locality to establish highway user fees for highways that are not part of any system of state highways when such highway's capacity is expanded by construction or reconstruction.

The Governor's amendment replaced the word "Commissioner" with the word "Board" so that the Board may enter into agreements with localities.

NAYS--Hull--1.

NOT VOTING--Athey, **Jones**, **D.C.**, Rapp, Welch, Wright--5.

SB 721 Highway improvements; expands present revenue-sharing fund program.

Summary as introduced:

Revenue-sharing funds for systems in certain counties, cities, and towns. Expands the present revenue-sharing fund program for counties to include cities and towns as well. The annual match limit is raised to \$1 million per locality, and the total limit on state funds is raised to \$50 million. Up to half of local contributions may take the form of proffers. Since the program now applies to all localities (not just counties), the present section embodying the program is repealed, and the new program is relocated to the article of Chapter 1 of Title 33.1 dealing with overall allocations of highway improvement funds.
